Synopsis:=====

Listening time 13 hours A code hidden in the human genome...Will reveal the ultimate secret of human existence.And could hold humanity's only hope of survival.* * *In 2003, the first human genome was

sequenced. But the secrets it held were never revealed. The truth was discovered thirty years ago, almost by accident. Dr. Paul Kraus had spent his entire career searching for what he called humanity's lost tribes—human ancestors who had gone extinct. When Kraus compared the DNA samples of the lost tribes with our own, he found a pattern of changes: a code. At the time, the technology didn't exist to unravel what it meant. To protect the secret, Keller hid his work and disappeared. Now the technology exists to finally understand the mysterious code buried in the human genome, but finding the pieces of Keller's research is more dangerous than anyone imagined. Dr. Peyton Shaw and her mother have obtained part of Kraus's research—and a cryptic message that could lead to the remaining pieces.
