SYNOPSIS

Librarian's note: This is an updated cover image for Kindle. See previously published cover [here](#). In this world, Dr. Charlotte "Charlie" Stone skillfully probes the twisted minds of incarcerated serial killers to better understand what makes them tick, and to help nab those who remain at large. But in the next world, Charlotte's ghostly lover—convicted killer Michael Garland—is facing death yet again. It seems the only way Charlie can snatch Michael from the jaws of oblivion is by proving his innocence. And this dead man's dead ringer may just be the key. A mysterious stranger has turned up in Big Stone Gap, Virginia, and Charlie is shocked to realize he could be Michael Garland's identical twin. But she suspects the resemblance is only skin deep—and that behind the handsome face may lurk the perverse mind of a killer. While using all her keen profiling gifts, Charlie risks her life to discover the shocking secret that will clear Michael's name.
